

DIPLOMA OF PROJECT CONTROLS

**COMING
SOON**

About Us

We are a niche and exclusive Project Controls education and training provider. We tailor learning pathways for individuals and businesses, from beginners to expert level.

Train with Project Controls Specialist

Project Controls is a critical component of any project. It enables project managers the ability to make informed decisions around time, cost and scope.

The Diploma of Project Controls will help you develop skills on how to control, monitor and systematically analyse progress and performance data on any project.

This qualification is developed to help aspiring and existing professionals gain the capabilities needed coordinate all aspects of project controls throughout the project lifecycle.
