

# The global benchmark in

Project Controls and Project Management

# Project Controls Institute (PCI)

That work for your business and career

The world's first and only Project Controls learning platform offering competency development across the full spectrum of Project controls alongside preparing learners for a wide range of global certifications. Our single, unique framework of streamlined, practical courses is cleverly designed to capture the key learning elements around knowledge, skills, and behaviours while meeting multiple

regulatory requirements and global accreditations.

We offer teaching in a classroom and virtual delivery environment, in addition to pre-recorded content. Learn with us and wherever you are in the world, we'll help you gain the required knowledge and qualifications that will set you apart.

## Who are we?

"Project Controls Institute (PCI) is a product of Projcon Group – a unique and global Project Controls training.

With decades of experience, we decided to launch PCI- a unique, accessible, fast-track learning portal to empower a global workforce of Project Control experts. At PCI, we deliver this through a single, unique framework of streamlined, practical courses strategically designed to meet multiple regulatory requirements and global accreditation schemes

Our modular structure covers the full spectrum of Project Controls elements and represents the work processes most appropriate to Europe, the US, Africa, the Middle East, and Southwest Asia. We've also helped a range of Governmental and regulatory bodies draft the national standards and certifications that stand for excellence worldwide.

# Diploma In Project Controls

## Overview

Those seeking to excel in the crucial world of project controls are invited to enrol in our Diploma in Project Controls, meticulously designed by Projcon Group and validated by the ETA, a UK government-approved awarding body.

The program equips aspiring project managers with essential skills to navigate all phases of the project lifecycle. The curriculum covers scoping, scheduling, budgeting, risk management, and stakeholder engagement, aligning with the core competencies required for effective project management.

Upon successful completion, this ETA-validated program awards participants a UK government-validated certificate with 120 credits, a valuable asset recognised worldwide and a testament to their project control expertise.

## Prerequisites

- ▶ GCSE with English and Mathematics/ equivalent international qualifications. Upon enrolment the relevant documents will be checked.
- ▶ Minimum two years industrial experience is desirable.

## Key Feature

- ▶ 12 Month Course (3 Terms: 2 Units in each term)
- ▶ Unit Study Guide
- ▶ 4 online recorded sessions per unit + PPT
- ▶ 2 Assessments per unit
- ▶ Validated by UK Awarding body (ETA) – ETA is UK government (Ofqual) approved.
- ▶ Reference Materials based on Real Life Examples and Case Studies

## Modules

### Term 1

- ▶ Unit 1 – Introduction to Principles of Project Management
- ▶ Unit 2 – Fundamentals of Project Controls

### Term 2

- ▶ Unit 3 – Scheduling and Cost Control
- ▶ Unit 4 – Estimating & Resource Management

### Term 3

- ▶ Unit 5 – Baseline & Performance Management
- ▶ Unit 6 – Work-Based Project 1

## Course Information

Launch: **Flexible Start Date**

Duration: **12 months**

## Study Mode

1-1 Assessment support sessions will be provided upon request basis (Each term up to 2 hours)

Moodle – Credentials to be provided upon the registration

# Diploma In Project Management

## Overview

Aspiring project managers seeking to excel in this dynamic field are invited to enroll in our Diploma in Project Management, meticulously designed by Projcon Group and validated by the ETA, a UK Government approved awarding body.

The curriculum includes modules designed to equip aspiring project managers with essential skills for success. Participants will learn to navigate the project lifecycle, engage stakeholders effectively, and manage project finances. - ▶ Unit 4 – Business Research Methods
- ▶ Unit 5 – Work Based Project 2

# Certified Scheduling Technician (CST)

Dedicated training in a structured manner allows candidates to demonstrate proficiency in the general skills and knowledge of the scheduling process within the AACE International Total Cost Management (TCM) framework.

Generally, CST represents early-career professionals who are working to gain the requisite years of experience, to become a certified Planning & Scheduling Professional (PSP) or more experienced mid- to late-career professionals who wish to be recognized for their planning and scheduling skills.

## Key Feature

- ▶ 5 hrs & 20 mins of high quality videos
- ▶ Knowledge Check Questions
- ▶ Assessment Test
- ▶ 16 video lessons
- ▶ Real Life Examples & case studies

## Modules

- ▶ Introduction
- ▶ Scheduling Overview
- ▶ Scheduling Principles
- ▶ Elements of a Basic Schedule
- ▶ Final Assessment

## Prerequisites

- ▶ 4 years of industry related experience, or 4 years industry related degree
- ▶ Adherence to AACE's Canons of Ethics

# Planning & Scheduling Professional (PSP)

This course prepares candidates for AACE's PSP certification and develops competency in project planning, and developing, monitoring, updating, forecasting & analyzing integrated project schedules. A PSP is able to communicate effectively with all project stakeholders, both internal and external.

AACE's PSP certification distinguishes candidates as a professional that has the skills and knowledge that is benchmarked with international project planning and scheduling practices. A mock-up exam is included at the end of the pre-recorded online course.

## Key Feature

- ▶ 4 hrs 44 mins of high quality videos
- ▶ Knowledge Check Questions
- ▶ PSP Mock-up exam (on request and additional price)
- ▶ 19 video lessons
- ▶ Real Life Examples & case studies

## Modules

- ▶ Introduction to Planning
- ▶ Planning Development
- ▶ Planning Outputs and Deliverables
- ▶ Schedule - Inputs and Data
- ▶ Creating Schedule
- ▶ Maintain Schedule
- ▶ Schedule Output and Deliverables
- ▶ Final Assessment

## Prerequisites

- ▶ 4-year industry-related experience plus 4-year industry-related college degree or 8-years industry related experience.

# Earned Value Professional (EVP)

This course prepares candidates for AACE's EVP certification and developing competency to implement the sound EVMS for integrated program management to effectively integrate the work scope of a program with the schedule and cost elements for optimum program planning and control.

AACE's EVP certification distinguishes candidates as a professional that has the skills and knowledge that is benchmarked with the International Earned Value Management System (EVMS) practices. A mock-up exam is offered for an additional price

## Key Feature

- ▶ 4 hrs of high quality videos
- ▶ Knowledge Check Questions
- ▶ Mock-up exam
- ▶ 17 video lessons
- ▶ Real Life Examples & case studies

## Modules

- ▶ Introduction to Earned Value Principles
- ▶ Organization
- ▶ Planning, Scheduling and Budgeting
- ▶ Accounting Considerations
- ▶ Analysis and Management Reports
- ▶ Revisions and Data Maintenance
- ▶ Assessment

## Prerequisites

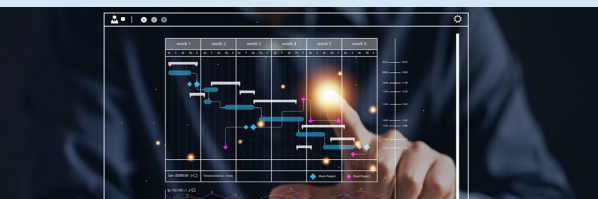

- ▶ 4-year industry-related experience plus 4-year industry-related college degree or 8-years industry related experience.

# Managing Projects Using Primavera P6 Foundation

Dedicated training in a structured and professional manner allows candidates to demonstrate knowledge and proficiency in using the Primavera P6 through project lifecycle.

PCI' s training incorporates industry accepted best practices for developing and managing good project schedule. We aim to develop candidates for success in real world project controls.

This approach develops competency and creates an environment that enables it to attract, develop and retain individuals who can contribute towards business objectives.

## Key Feature

- ▶ 12 Hours of Training/ 43 Video Lessons
- ▶ Real Life Examples
- ▶ Final Assessment Exam
- ▶ Knowledge Check Questions
- ▶ Practical Assignments

## Modules

- ▶ Course Navigation
- ▶ Introduction
- ▶ Navigating
- ▶ EPS
- ▶ OBS and RAM
- ▶ Projects
- ▶ WBS
- ▶ Activities
- ▶ Resources
- ▶ Baseline
- ▶ Inputs to Update
- ▶ Update the schedule
- ▶ EVM

## Prerequisites

- ▶ There is no formal entry requirement to take this qualification. However, it's recommended that candidates have a basic understanding of the project management.

# Certified Cost Professional (CCP)

This course prepares candidates for AACE's CCP certification and develops competency to assist in corporate investment decision making, apply statistics and probability for bidding, planning, scheduling & estimating, implement the Earned Value Management System (EVMS) for cost control and analyze the productivity & performance. In addition to various aspects of cost engineering, this course also includes the wider integration of project controls incorporating cost estimating, planning & scheduling, cost control, and risk management.

AACE's CCP certification distinguishes candidates as a professional that has the skills and knowledge that is benchmarked with international cost engineering practices. A CCP is an experienced practitioner with advanced knowledge and technical expertise to apply the broad principles and best practices of Total Cost Management (TCM) in the planning, execution and management of any organizational project or program. A mock-up exam is included at the end of the pre-recorded online course.

## Modules

- ▶ Introduction
- ▶ Cost Fundamentals
- ▶ Cost Estimating
- ▶ Planning And Scheduling
- ▶ Project And Cost Control
- ▶ Project Management
- ▶ Economic Analysis, Statistics, Probability And Risk

## Key Features

- ▶ 11 hours of high quality video Lessons
- ▶ Knowledge Check Questions
- ▶ CCP Mock-up exam (on request and additional price)
- ▶ 35 Video Lessons
- ▶ Includes examples & Case Studies

## Prerequisites

4-year industry-related experience plus 4-year industry-related college degree or 8-years industry related experience.

## Our Corporate Customers

PCI's unique approach for our corporate clients enables you to develop competency, create an environment that allows you to attract, develop and retain a team who can contribute towards your business objectives.

### Key Features

- ▶ End to End Solution Provider for Training & Accreditation (Skill Gap Assessment, Bespoke training and Certification/Accreditation)
- ▶ Custom Training Solution - Flexibility to blend PCI patented training content with client's content to deliver bespoke training.
- ▶ Competency-based courses across the full spectrum of Project Controls that meet major professional.
- ▶ Blended Approach - On-demand training supported by onsite workshops, case studies and real-life examples to elevate the learning experience.
- ▶ Dedicated Page – Dedicated page with controlled access to client staff only.
- ▶ Progress Tracking – Dedicated dashboard to track career path and training progress of individuals.
- ▶ Login Integration - Single sign-on capability for convenience.
- ▶ Offline Access - Offline access to courses via app feature (under development).
- ▶ Dedicated Account Manager - International based dedicated account manager for enhanced customer support
- ▶ Mentoring and 1:1 training after assessment.
