1. Course Description

Course name: Primavera P6: Advanced Level.

Dedicated online training in a professional manner for Primavera P6 Advanced training develops competency in advanced scheduling, earned value analysis and resource management topics like manual allocation, bucket planning and levelling.

Our unique approach includes weekly webinars/classroom sessions, real life examples, assignments and their review, mock exam and full exam in addition to demonstrating the application of P6 on full project lifecycle. This approach develops competency and creates an environment that enables it to attract, develop and retain individuals who can contribute towards business objectives.

2. Course Development

This course is developed by industry experts working on real-world projects. Course is developed through a series of modules, lessons, demonstrations and exercises that introduce the concepts and techniques the participant needs to use Primavera P6 in a professional working environment.
