Fundamentals of Earned Value Management

Course Brochure and Competency Matrix

▶ INDEX:

1. Company Introduction

Project Controls Institute, Australia is World's first and most unique Project Controls learning platform offering blended education alongside a flexible framework of global accreditations and qualifications. Project Controls Institute, Australia combines unique content with blended learning methods, mapped to major global frameworks that allows candidates to gain accreditations/certifications with AACE, PMI, APM, APMG, ECITB and Engineering Council UK. Project Controls Institute, Australia is also supported by globally recognised professional bodies such as Engineers Australia and ACostE.

Through a simulated classroom experience, you'll be taught by industry experts to not only understand the Project Controls theory that's essential to your career development but how to use software systems in a real-world, operational setting. What's more, you'll also get access to the Project Controls Institute, Australia Handbook for free. Learn with us and wherever you are in the world, we will help you achieve the qualifications that will set you apart.

2. Training Programme Description

Course Name: Fundamentals of Earned Value Management

Dedicated online training module in a structured and professional manner allows candidates to demonstrate knowledge of Earned Value Management tools and techniques from the breakdown structures, right through to successful delivery of regular earned value reports to aid decision making by senior management. It demonstrates that you understand the methodology and can apply the terminology correctly.

3. Course Development

Our course is prepared by the industry experts who helped Governmental and professional bodies to draft their national standards and certifications.

4. Certifications Offered

Upon successful completion of training and assessment, candidate will be eligible for Project Controls Institute, Australia certificate.
