1. ABOUT US

Australian Open Learning Pty Ltd, operating under the name Project Control Institute, Australia officially became a registered private training organisation in March 2022. Ms. Merina Shakya, the CEO of Project Controls Institute in Australia, is a seasoned and dedicated Project Manager with over eight years of experience in the Information Technology and Services field. College currently operates in the niche areas of Project controls and Information technology.

It's important to note that Project Controls Institute, Australia exclusively offers the Diploma of Project Controls to domestic students. This diploma program introduces a well-organised and uniform methodology for practicing project controls, filling a current void in the industry. The curriculum is designed to bolster the analytical skills and decision-making prowess of professionals in this field. By emphasising the use of data analysis to substantiate decision-making and enhancing data visualisation capabilities, the diploma signifies a progressive step forward in facilitating career advancement and acknowledgment for project controls practitioners.

Project Controls Institute, Australia places a strong emphasis on recognising the value and advantages of integrating industry expertise with vocational education in its pursuit of providing the most outstanding and relevant educational programs to learners. The trainers and assessors engaged or contracted by Project Controls Institute, Australia possess substantial industry experience, alongside the necessary vocational qualifications. This combination equips them to create a professional and comprehensive learning environment for program participants. The staff members are proficient in tailoring their teaching methods to suit all learners, employing clear and straightforward language when appropriate to effectively convey information. Project Controls Institute, Australia is committed to strict adherence to the Standards for Registered Training Organisations, ensuring the continued delivery of training services of the highest Caliber to its clients.

At Project Controls Institute, Australia, the management team actively welcomes input and advice from all stakeholders. This collaborative approach ensures that the institution consistently upholds its core philosophy of continuous quality improvement across all aspects of its operations.

2. COURSE OUTLINES

Course Name

APMG International Project Planning & Control TM – Practitioner

Delivery method

Online

Course duration

4 hours of high quality videos

Eligibility requirements

Foundation qualification is a pre-requisite for the Practitioner qualification.

About the course

The purpose of the Practitioner qualification is to confirm whether the candidate has achieved sufficient understanding of the theory and application of the tools and techniques to allow them to work successfully in a Project Support team environment. They should be capable of applying and assessing the tools and techniques independently but will have a team around them and advice and support available as required. A successful Practitioner candidate should, with suitable direction, be able to start applying the method to a real project but may not be sufficiently skilled to do this appropriately for all situations.

Our course is prepared by the industry experts who helped Governmental and professional bodies to draft their national standards and certifications. This course is mapped to the APMG's guide, 'Planning, Scheduling, Monitoring and Control – The Practical Project Management of Time, Cost and Risk.'

Project Planning & Controlling (PPC) Practitioner
